Modern Holiday Glamour

"Modern holiday glamour is soft, sexy and sophisticated. Hair looks touchable and movable with fewer pins and less spray. It definitely looks like she's been to the salon, but it's not as 'done' as when her mother went to the hairdresser."

BEAUTY PAWS AND CLAWS NO PETS LEFT BEHIND

Giving back to their community is important to the team at Beaux Vagabonds in Tampa, Florida. So in saving animals, after Hurricane Katrina, they knew they had to do something that would address both.

The result is, "Beauty Paws and Claws: No Pets Left Behind," an event for 125 guests, created to raise funds to pass legislation to allow people to bring their pets to shelters during disasters.

"During Hurricane Katrina, thousands of people were forced to leave their pets behind, because they weren't allowed to bring them to the shelters," explains Terry Soriano, a Goldwell North American Guest Artist and a stylist at Beaux Vagabonds.

Tony, his co-worker Miriam Lopez and sales manager Karen Weisberg, planned a fundraising cocktail party and silent auction, which included Goldwell products donated by Evolution, their Goldwell distributor, and other local businesses. During three hours, they raised \$4,000—\$1,500 over the original goal.

They will donate up to over \$4,000 to help cover transportation to and from pet shelters during times of disaster.
