

EYELASH EXTENSION CLIENT RELEASE

The undersigned has been advised, by the service technician, that eyelash extensions have a high degree of client expectations that cannot be met by the service. Extensions require considerable upkeep, delicate care and fill-ins once every two weeks. Mitchell's Salon & Day Spa, Inc. recommends that you proceed with your service only after a thorough consultation.

To Maintain the life of your Eyelash Extensions the following instructions must be followed:

1. Immediately after application, **DO NOT GET LASHES WET FOR AT LEAST 24 HOURS** to allow the glue to completely dry.
2. Avoid hot steam for 48 hours.
3. Be very gentle with your lashes. Do not excessively rub eyes.
4. Do not use a mechanical eye lash curler because they are harsh and can break both natural and synthetic lashes. A heated eyelash curler may be used sparingly. Prolonged heat to lashes may cause them to come loose.
5. **AVOID OIL BASED CLEANSERS, LOTION OR EYE MAKEUP REMOVERS.** This will dissolve the glue bond. Instead use water or gel cleansers. Use a Q-Tip to remove eyeliner.
6. Mascara may not be necessary. However, if you choose to use it you must use water based mascara. **NO WATER PROOF MASCARA.** The ingredients in waterproof mascara will dissolve the bond between the synthetic lash and the natural lash, causing the extension to fall off. Apply mascara to the tips only. Application near the base can physically break the bond between the Eyelash Extension and the natural lash causing the extension to fall off.
7. To maintain your Eyelash Extensions, you must do follow up "fill-in" visits every two weeks to replace lashes as they fall out naturally. Please have your technician book this appointment for you at time of check out to assure you a spot in the time most convenient for you.
